

USB to Type-C&Lightning &Micro

Model: EGA-D3

Smart chips

Safe to charge

Widely compatible

30W Total power

Charging at the Same time without Queuing up

One cable is equivalent to three single cables supporting the simultaneous charging of iP/Type-C/Micro devices.

Micro Interface

Type-c Interface

8-PIN Interface

Durability And Corrosion Protection

Corrosion resistance is more wear-resistant, equivalent to the old plug 6 times times the service life

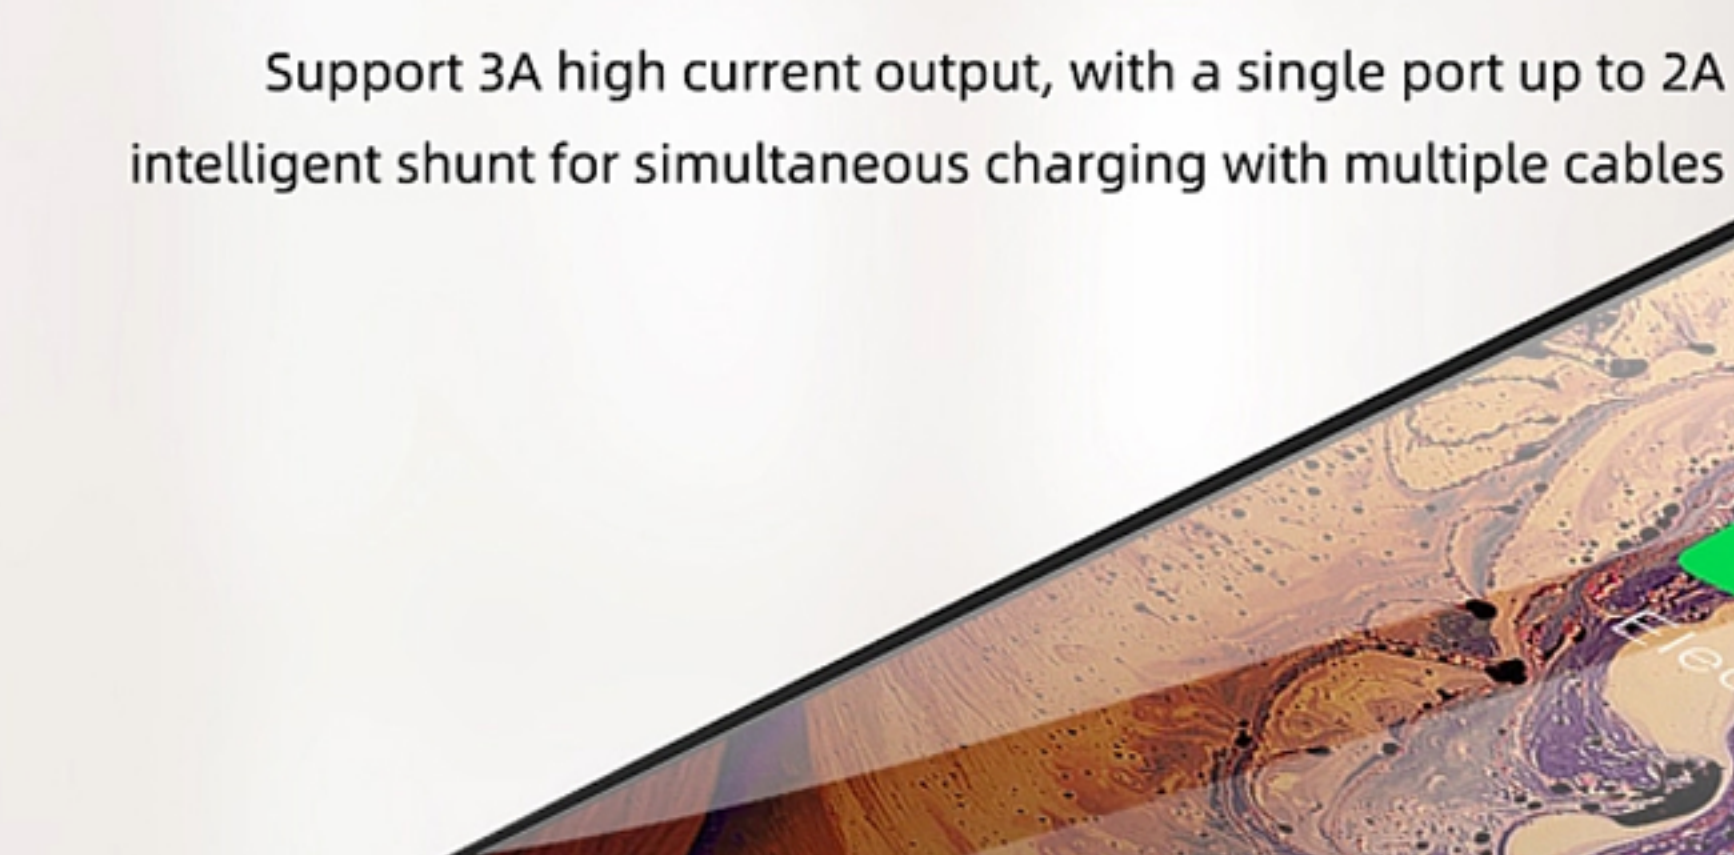

Antioxidant Plug

Preventing Cracking

Durable And Non-Fractured

TPE stubborn, able to withstand repeated bending

10,000+ Bending test
hard and protective, no broken

Two-in-One

Fast Data Transfer

USB2.0 high-efficiency transmission, support mobile phone charging and data transmission, fast and convenient

3A Real Quick Charge Full Charge at Lightning Speed

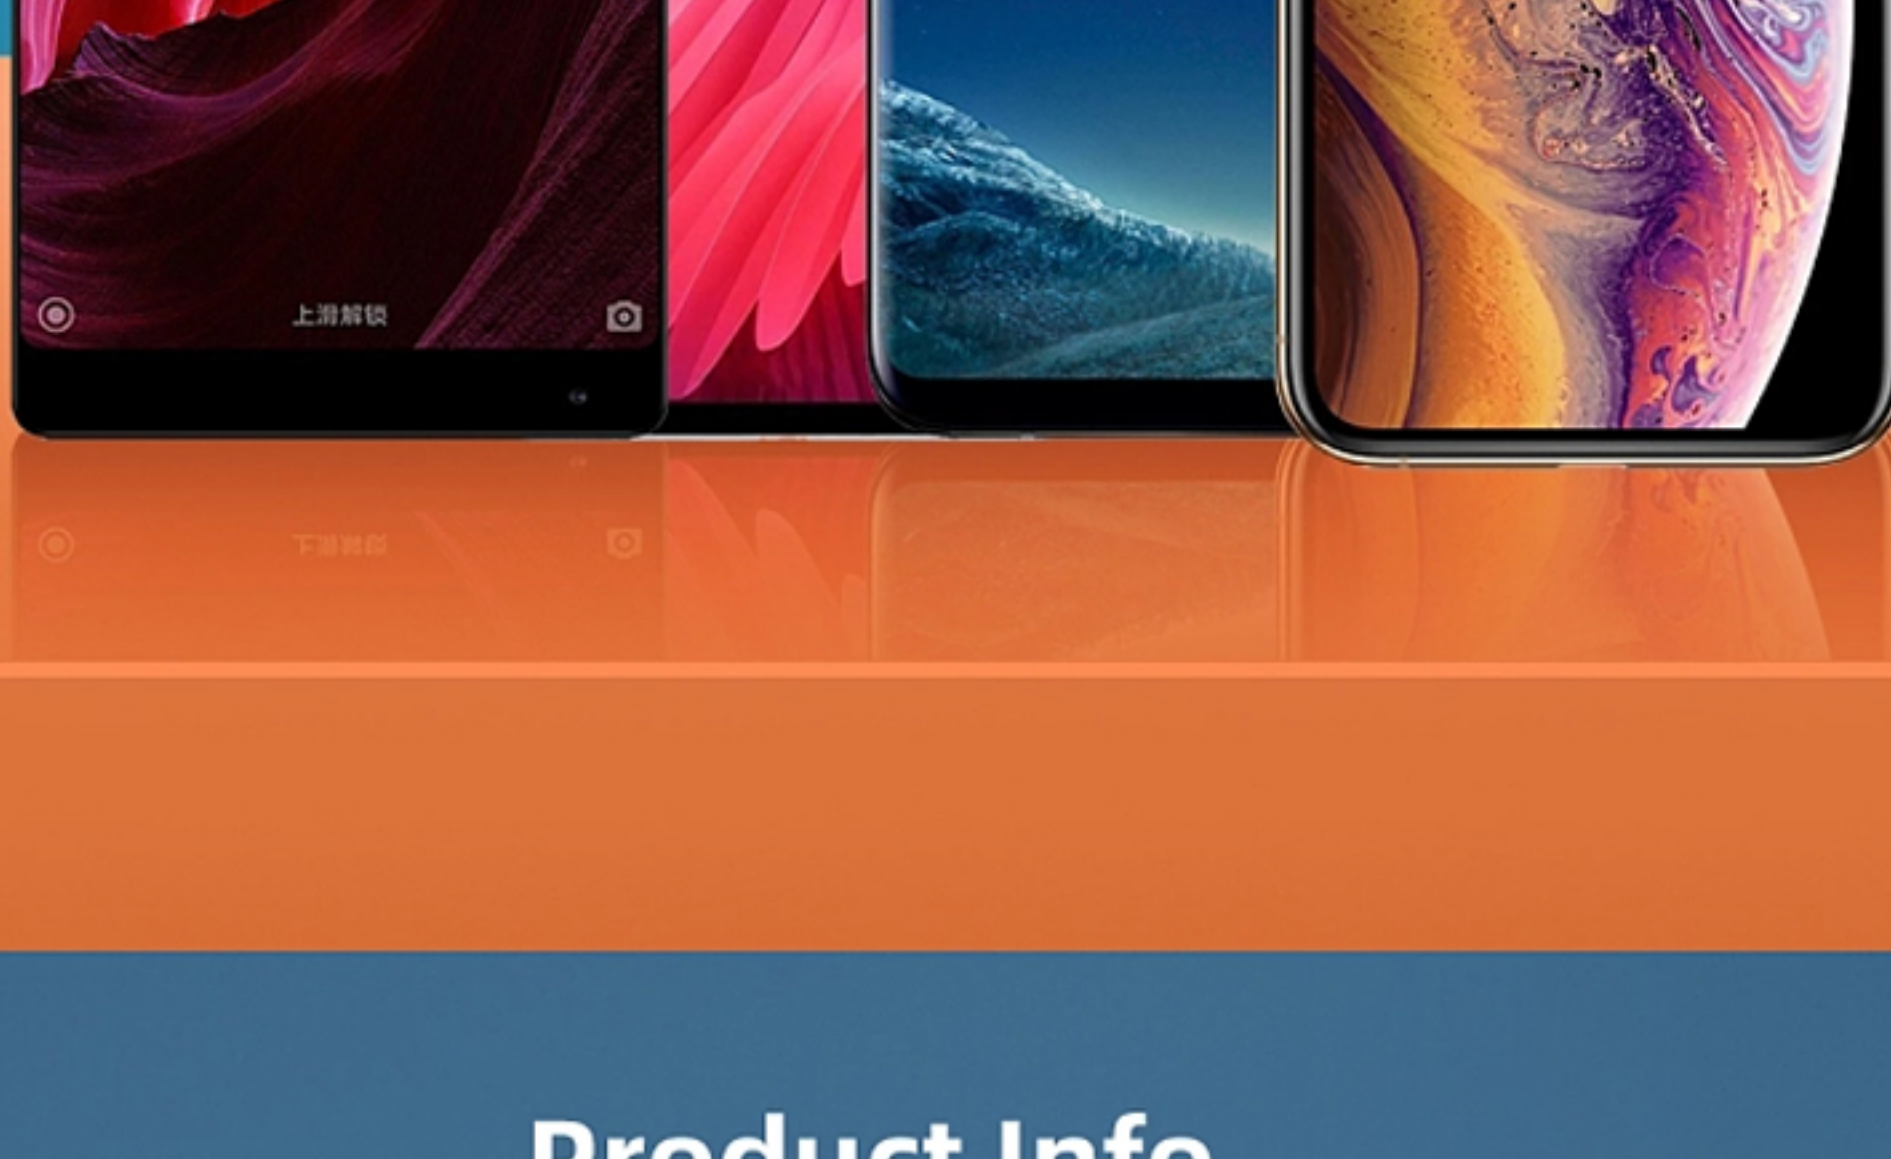

Support 3A high current output, with a single port up to 2A intelligent shunt for simultaneous charging with multiple cables

Good Compatibility, Excellent Quality

Widerange Of Compatible Devices

Suitable for 8-PIN/Micro/Type-c interface and other equipment, cost-effective

Product Info

Cable length: 1m

Connector: USB to Type-C & Lightning & Micro (3in1)

Core of cable: 106 pieces of fine cooper

Type-C Support current up to 3A Max

Lightning Support current up to 2A Max

Micro Support current up to 2A Max

ESD 4K/6K

Salt Spray Test: 24hrs

Ordinary packaging
